PONTICELLO

Managed Antivirus:
High Performance Business Antivirus

Does your Antivirus software slow down your PC?

With thousands of new threats created every day, it is more important than ever to invest in comprehensive antivirus cover. But all too often, businesses suffer slow performance during scans as antivirus programs reduce productivity, consume IT resources and clog the network.

Ponticello has the answer – Managed Antivirus

Recognised for its industry-leading detection rates, Managed Antivirus combines advanced antivirus and anti-spyware technologies to provide complete security without slowing down your PCs. Managed Antivirus works in the background to safeguard and protect your network... without slowing you down!

You need to know that your computers are up to date, scanned regularly and are clean. Managed Antivirus can do all this for you.

Business Benefits

- **Comprehensive Security:** Managed Antivirus will detect and remove viruses, spyware, rootkits, bots, trojans and other types of malware.
- **Increased Productivity:** Scans for threats quickly, without draining resources or slowing down computers (even during scans).
- **Real-Time Reassurance:** Active Protection runs quietly in the background protecting every computer.
- **Fully Managed:** The status of antivirus software is included in SystemEyes daily monitoring reports.
- **Affordable, Flexible Cover:** Pay monthly rather than annually. No minimum commitment period.

How it works

We install Managed Antivirus onto your computers and manage everything remotely. All computers are scanned every day and SystemEyes monitors results in real-time. When threats are detected, we are alerted immediately and respond to protect your computers and data.

Call us today on 0800 080 3077 to arrange a FREE 30-day trial.

How much?

At just £1.75* per month, Managed Antivirus offers affordable protection on a flexible basis. Charged per device, with no minimum time commitment, you can add and remove computers as required and we simply adjust your monthly invoice accordingly.

* Excludes VAT.

Why choose Ponticello?

Managed Antivirus is reliable, cost-effective, secure and highly-efficient, which is why scores of local businesses trust Ponticello to protect their networks.

With years of practical experience, our Microsoft-qualified engineers have the skills and knowledge to help your systems perform at their very best. We always explain things clearly to help you make informed choices – and we never recommend work that you don't really need.

> ## " Don't just take our word for it...
>
> Operating within many national and international organisations across varied sectors, we must comply with strict policies, guidelines and laws to ensure integrity for our clients and their information. Ponticello's support in this area has been invaluable; routinely liaising directly with our clients' IT teams and contractors to configure safe, audited VPN connections and firewalls. Every day Ponticello update, virus check and back up our systems, providing all the reports and audits we need. This gives us piece of mind, ensuring that we can concentrate on our clients' needs.
